Take Away Box

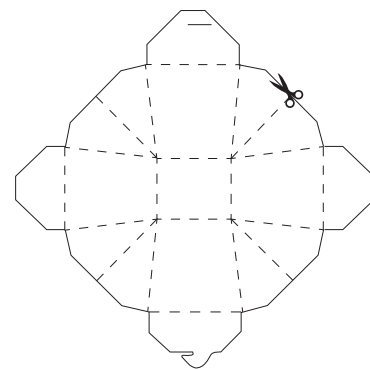

A cool way to wrap a gift for a loved one, a funky way to make kid's party gift bag or a simple decoration for the home. This Take Away box will please young and old.

1: Print out the Mini Gift Bag Template. Cut around the solid lines.

NOTE: Pattern is at A4 size, but can be photocopied or enlarged onto larger paper if you wish.

You will need to print pattern on opposite side of paper to prevent visible lines on your final Take Away Box.

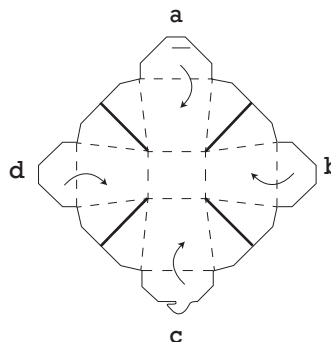

2: Fold edges-

- Firstly, score the edges of the flaps (a,b,c,d) inwards. As shown in first illustration with arrows.
- Fold the 4 darker lines into a mountain fold. See below.
- Fold the remaining 8 dotted lines into a valley fold. See below.

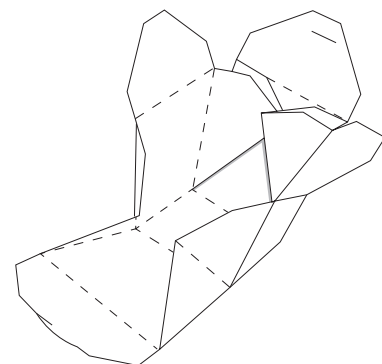

NOTE: A mountain fold is where a peak is made on the fold line, and the two sides are folded back on themselves. A valley fold is where a gutter is made, and the two sides are folded in on themselves.

See far right illustration for correct folds.

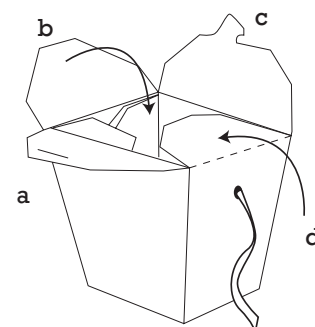

3: Assemble box-

With correct folds, the box should come together quite easily. Bring together the side flaps (b and d) of the box and tape together. Repeat again for other side. As shown.

4: Make Ribbon holes-

- On sides b and d, make a small hole about 3/4 up from bottom for your ribbon ties. It is best to use a knife tip, so that the hole is small. Cut 2 pieces of ribbon at desired length. You can trim ribbon once you have tied up your box.
- Tie double knots on one end of each ribbon, and thread through the holes. Make sure the knot is on the inside on the box.
- To close the box, fold b and d in first.

5: Tie up and decorate box-

Tie up pieces of ribbon at top of box. Attach Paper Daisy (see Paper Daisy instructions) or paper decoration (see paper decoration).
