P260 Nursery

P261 Lullaby

P262 New Born

P263 First Steps

Sand all pieces to remove any rough edges.

Cover the front page of the album with *First Steps*. Turn page over and cut through the flower shape and album ring holes. Cover the back of the front page with *New Born* and trim as above.

Gently swipe paint around the edges of your album page and the flower shape. Paint through the flower holes to make sure there is no wood showing (see Photo 2). Paint the wooden flourish and let dry.

Apply your title, cutting out and adhering each letter separately to get a playful effect. Trim the prongs off a large brad and adhere with foam tape to the centre of the flower shape. Adhere the wooden flourish on the left side of the page, ensuring the album ring holes remain uncovered. Decorate with flowers, and attach brads to finish.

For the open page spread, choose a word from *New Born* (reverse side) and adhere in the bottom left corner. Embellish with a large flower placed over the flower cut out, other flowers, a large brad and pearls.

On the right hand page, cover with *First Steps*. Cut a rectangle 9 x 12.5cm (3½" x 5") and adhere to your page, twisting it slightly. Adhere a journalling block in the centre which measures 5cm x 8cm (2" x 3¼"). Attach your rhinestone flower in the upper right corner. Finish off with flowers, pearls and a large rhinestone in the centre of your rhinestone flower.

Tip

For simple and quick titles, type your words in a word processing program, select a font and print on coloured paper. Cut out your words and ink the edges to add dimension.
