BR001 Baby Girl

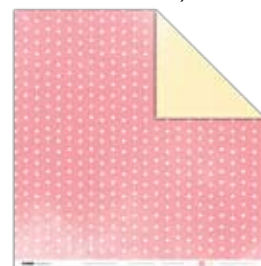

SB536 Floral

PL60 Angelic

PL61 Pretty

PL62 Sweet

PL63 Cute

1

Gently sand all edges of your album to remove any rough edges. Paint all edges with two coats of Pretty Pink paint.

Cover your front page with the Sweet paper. From your Pretty sheet, cut a thin scallop edge by tracing the scalloped edge of the album and attach at the base of the wing.

Cut a 13cm x 1cm strip from the back of your Angelic sheet and attach. Place a 7cm x 5cm photograph over your strip. Cut a love heart from one of the clover petals and a small pink flower from the Angelic sheet. Doodle around the edge of the clover and layer them using foam tapetogether to the top of your wing.

Apply rubons and pearls to decorate as you desire.

Choose papers from the Little Miss Paper Collection and cover all sides of your album, making sure to cut out the holes for the rings after each side is covered.

For the album pages shown below use Cute paper (reverse side) to cover the left album page. Make a tag and rubon a quote from the New Baby rubons. At the top, rubon a leafy design from the Floral pack. Attach some ribbon and glue your brad on firmly.

Cut some clover from the Angelic paper, and doodle around the edges in black ink to make them stand out. Attach to your page with foam tape to add dimension.

Cover the right page with Angelic paper (reverse side). Print a photo large enough to cover the height of the album and attach. Turn page over and cut away the excess. Cut flowers from the Angelic sheet and attach to the left side of your photograph. To finish your page, add another rubon to the right hand side of your photo, and finish with some small pearls.

Cover remaining pages as desired with rubons, pearls and your special photos.
