SB238 'Giggle' Script word

SB739 Large Flower

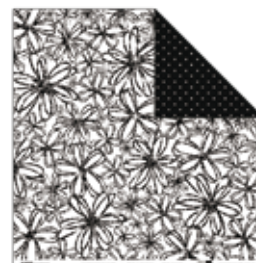

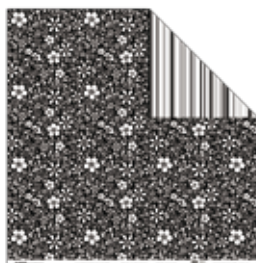

SB912 Fushia Daisy Chain

OTHER:

- Flowers
- Ribbon
- Metal embellishments

Ebony and Ivory Collection

1

Gently sand around all 6 product pieces to remove any rough edges.

Using black Kaisercolour, paint all outside edges.

Using the Ebony and Ivory Collection, choose two different paper designs for each calendar page and adhere them to each piece, trying to keep a light and a dark print together. Across the join on some pieces I have adhered a coordinating piece of ribbon.

Decide on one complimentary color for all the embellishments for each month. Once you have chosen your photos matte them on to cardstock that will coordinate with the color for that month. The same applies for the embellishments. Add some bling, rubons, quotes or write your own journalling to personalise your calendar even further.

2

giggle

From the website you can download a copy of the calendar months that have been used on this particular project. For each of the months, carefully cut around the Victorian Frames and adhere them to the appropriate piece. You could also matte this frame using a matching cardstock if desired.

Add further embellishments to decorate and complete your calendar. This can be now displayed proudly on your desk or given as a extra special gift.

3

Tip

Create moods with a different colour for each month.
