OTHER:

- Rubons
- Felt letters

SB125 Jigsaw Keepsakes

SB725 Curly

SB713 Pearl

KC044 Spearmint

SB537 Elegance

P188 Wanderer

P189 Gypsy

P190 Traveller

P191 Nomad

Lightly sand all pieces of your jigsaw. Using Spearmint Kaisercolour paint the edges of the jigsaw pieces 1cm (½") in from the edge to create a border. Allow to dry.

Select your desired Vagabond papers. Before adhering, lay each jigsaw piece down on your chosen paper and trace around them with a pencil. Cut approximately 5mm (¼") in from this pencil line- creating a border for your jigsaw piece and adhere.

Apply a small amount of glue to the inside edges of the jigsaw pieces and stick them together.

Cut various sized circles from the Vagabond range and five flowers from *Nomad*.

For the back of your jigsaw, print a photograph 19.5cm x 19.5cm (7¾" x 7¾"). When the glue holding the jigsaw pieces together is dry, place the jigsaw back side up. Adhere the photo in the centre carefully, so an even border is left around the outside edge.

Flip your jigsaw over again. Embellish with the cut out circles, then print four photographs and adhere to each jigsaw piece. Embellish further with rubons, pearls and cut out flowers. Finish with two wooden flourishes butting together in the centre of the jigsaw. Also add two flowers and some rubons to the back (see below).

Tip

A great alternative for this project is to substitute some of your photographs with your favourite quotes.

Hint

To protect your main back photograph when scrapping the front of the jigsaw, have it resting on a sheet of clean paper.
