

Danielle Kriven / Jades Garden Paper Collection

Simple Plans 01

Who's That Girl?

KAISERCRAFT

From a sheet of paper cut out a 26.5 cm circle. Keep aside the corner of one of the leftovers for use later.

From a coordinating piece, cut out a 25 cm circle but carefully cut around the large orange flowers at the point they exit the circumference in the top right corner. Also from the leftovers of this sheet cut a 12" strip.

Adhere a strip of another patterned paper along the bottom of white cardstock and adhere the cutout corner to the top left side.

Layer your two circles and adhere them to the bottom right hand side of your cardstock.

Attach your photo to the top left side of your circle. Cut out shapes from your papers and attach to the layout along the bottom left side of your photo with brads, as further decoration.

Add your title or any relevant journaling to your layout and further embellish with rhinestones and pearls.
