Cabbage Patch Paper Collection

KC043 Seabreeze

1

Gently sand all pieces to remove any rough edges and Paint all the pieces with Seabreeze.

Cover the front and back pieces using Spring Green paper. Turn over and trim any overhanging paper. Lightly sand edges to smooth and to give a lightly distressed look.

For the front piece, cut another strip with the stripes running horizontally and centre across piece and adhere. Rub on the flower border and stick a rhinestone to the centre of each flower.

Cover the two side pieces with Tender Heart paper and again trim and sand edges.

For the lid cut various sized rectangles and strips of printed paper and layer them to until you get your desired effect.

Cut a  $\frac{1}{4}$  of a circle (approx. 12cm radius) from the reverse side of the Tender Heart paper and also cut out 6 x 1  $\frac{1}{2}$  " smaller circles to place around this to create the flowered scallop edged effect.

Cut out extra flowers from the Savoy and White papers and adhere to lid in desired positions. To give these a 3d effect use foam mounting tape.

Add some rubons and further embellish with various sized flowers and rhinestones. Paint chipboard letters that spell out your name or initial and then adhere to the lid.

Turn lid over and cover the reverse side in coordinating paper.

Using a strong wood glue or PVA put your storage box together starting with the front and back sides. Remember to place the tabs for the lid in the holes on the side pieces before gluing the sides down.

2

## Tip

Prior to adhering paper to the underside of lid, you can create an easy-open handle by folding a small piece of ribbon in half and attaching.
