

# Tabbed Journal

This album is part of the new BTP Series III and would have to be one of my favorites. This album can be used for any number of projects such as your favorite quotes or recipes, but as you can see by this example it makes a beautiful treasured keepsake for someone very special.

**Sand off any rough edges.** Paint the tabbed pages your desired colors. If you have chosen a lighter shade you may have to give your product 2-3 coats of paint. Set aside and allow to dry.

Choose 4 sheets of coordinating patterned or plain paper. You will need to cut the following from each sheet:

- Two 4 x 6" rectangles (8 rectangles in total)
- Two 1½" circles (8 circles in total)

Ink or distress the edges of the rectangles and circles before you adhere to each piece of wood. In this instance I have used the Shiraz stamp ink pad and gently wiped it around the edges.

Adhere your cut out papers to your tabbed pages in a coordinating layout.

Note: The example of the finished product has used some extra colored coordinating paper for some of the circles and backs of pages.

Work out what photos you would like to place where and mount them on a matching colour paper if required.

For that final touch, add some heartfelt journaling or quotes to each page. Rub ons are a great and easy way to express your message.

Finally tie your book together with coordinating ribbons and further embellish if desired.

## Tips

Print your photos in black and white or sepia for a heritage look. This will make them easier to match with the project colour scheme.
